Adult ADHD Assessments

1. How many adults do you have waiting for an ADHD diagnosis at the moment?

977 awaiting assessment for diagnosis.

2. How many adults were given an ADHD Assessment in the last year (1st April 2025 - 31st March 2026)?

204.

3. If an adult was referred to you now when would you expect them to be seen?

We are unable to provide an accurate prediction of future waiting times because in a person-centred service, this will depend on several variables that can affect waiting times.

4. Please describe your current Adult ADHD Assessment pathway.

Details of the ADHD assessment pathway are available on the Trust website (Sheffield Adult Autism and Neurodevelopmental Service - SAANS).
