Re: Freedom of Information Request

Original Request and Response:

1. How many children do you have waiting for an ADHD diagnosis at the moment?

Trust Response: N/A

2. How many children were given an ADHD Assessment in the last year (1st April 2025 - 31st March 2026)?

Trust Response: 522

3. If a child was referred to you now, when would you expect them to be seen?

Trust Response: WCHC aims to see referrals within 12 months

4. Please describe your current Child ADHD Assessment pathway.

Trust Response: When children are referred to Wirral University Teaching Hospital NHS Trust, they are sometimes required to complete a Conners or QB test. Completion of these tests is carried out by Wirral Community Health and Care Foundation Trust by our 0-19 Teams. Children referred are triaged and then seen for an assessment appointment. Once the assessment has been completed, the test will be scored and returned to WUTH's community paediatric team for further review and actioning.
